

Maria Anjelika Erese

BSIT 4C

03 Assignment 1

1. ***Log in to your Huawei account at <https://e.huawei.com/en/talent>***
2. ***Enroll in the Cloud Basics course found at this link:
https://e.huawei.com/en/talent/outPage/#/sxz-course/home?courseId=edxr72w_SgSdvaabCp8Xxkgd6bM***
3. ***Complete the modules by watching the videos and answering the quizzes and final exam.***
4. ***Screenshot your final exam score (showing your username) and upload the image file to this dropbox. (10 points)***

- 5. *Select your favorite topic. In four (4) sentences, discuss why you consider that topic your favorite. Place your answer in Notepad and upload the text file here.***

My favorite topic is the deployment models in cloud computing. I find it very interesting because it shows how different cloud environments, which are: public, private, and hybrid, are structured to meet the specific needs of organizations. This topic is easy to understand since each model has clear characteristics and examples, making it simple to see how companies manage resources, security, and scalability. Learning about deployment models is valuable because it clearly demonstrates the practical ways cloud computing can be applied in real-world situations.
